## GEN. WOOD SAILS FOR HONGKONG

#### Sets Out With Forbes for China-Summary of Report Sent Here.

By the Associated Press. MANILA, September 12 .- Maj. Gen. Leonard Wood and W. Cameron Forbes, with the other members of President Harding's mission to the Philippine Islands, sailed yesterday for Hongkong, China, on the steamer

Korea Maru.

After a three-day visit to Hongkong the mission will go to Shanghai on the steamer Empress of Asia, where they are to be the guests of the Chihese government, later visiting Peking and other cities.

Leaving China, the mission will travel through Korea as guests of the Japanese government, following which. Gen. Wood and other members of the commission will return to Mahila, while Mr. Forbes will sail from Japanese to the United States with the mission's réport.

A summary of the report was telegraphed to President Harding from Manila just prior to the departure for China.

Lack Sufficient Resources.

In an address yesterday at the University of the Philippines Mr. Forbes declared the islands are still without sufficient resources for the maintenance of a separate unprotected government, but that he believed it contrary to the traditional policy of the American people to hold an alien people in subjection permanently against their own will.

"I will make clear the position I have always held regarding Philippine independence," Mr. Forbes said. "I believe in the desire for independence, and have never tried to discour-Lack Sufficient Resources.

At the request of Assistant Corporation Counsel Williams the court continued the hearing of the rule until September 22.

Attorneys N. C. Turnage and C. T. Clayton asked for a temporary injunction to insure that no arrests would be made under the new regulation before the court hearing, but on assurance of counsel for the Commissioners that the status quo would be maintained, the court refused the restraining order.

The new regulation seeks to prevent public hackers from stopping or lichering on any street except at public hackers from stopping or unloading passengers. The hackers claim the proposed regulation is unconstitutional, discriminatory and aimed at the elimination of the hacking industry, in which, they assert, more than \$1,000,000 is invested.

Mr. Woodhouse further declares that a saving of over \$5,000,000 to the government can be effected by the Senate committee at this time by causing the cancellation of contracts causing the cancellation of contracts placed at exorbitant prices by the air service for airplanes, dirigibles, balloons and motors, and other equipment that are not needed, as there are as good and better unused and stored away, for which the American public paid over \$500,000,000, and is paying millions of dollars to house and wasting thousands of acres of floor space occupied by this material and employing hundreds of men to look after it.

It is expected the complaint will be filed today in the federal court at Philadelphia.

Previous Demand Made.

Demand was made on Mrs. Bergdoll last May for delivery of all property belonging to her son or in which he had any interest, Mr. Miller said, but despite repeated extensions of time allowed Mrs. Bergdoll the property had not been turned over to the government. This, he added, made it necessary to take the action planned. "At the time of seizure," said Mr. Miller, "Mrs. Bergdoll had not been sentenced as a result of her trial for aiding and abetting the escape of her son and for conspiracy to evade the draft. She was also under examination by the special committee of Congress, which has since made its report, and it was felt by the custodian's office that under these circumstances they should be lenient at that time in insisting upon immediate compliance by Mrs. Bergdoll with the demands of the government. The mark of a little six-holed cushion of accurately blended rubber has become the most famous imprint in the world.

With a little money and a lot of faith, the O'Sullivan Rubber Company was founded twentythree years ago. Then no one wore rubber heels. Last year enough were made in America alone to reach, if put a step apart, six times around the globe.

The O'Sullivan story has aroused millions to the dangers of fatigue. Men and women everywhere now protect themselves from the shocks of their 8000 steps a day—the shocks that exhaust their nervous energy.

That famous O'Sullivan blend means a heel that is first and foremost a shock-absorber-a heel that stays live and springy till it's worn waferthin. Every step seems to fall on a cushion of air!

### Watch Your Gums-Bleeding a Sign of Trouble

Medical science knows how serious is the sign of bleeding gums. For it knows that tender and bleeding gums are the forerunners of Pyorrhea, that dread disease which afflicts four out of five people over forty.

If the disease is unchecked, the gum-line recedes, the teeth decay, loosen and fall out, or must be extracted to rid the system of the Pyorrhea poisons which seep into the system and wreck the health. These poisons often cause rheumatism, nervous disorders, anaemia, and other ills.

To avoid Pyorrhea, visit your dentist often for tooth and gum inspection, and use Forhan's For the Gums. Forhan's For the Gums will prevent Pyorrhea or check its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums firm and healthy—the teeth white and clean. Start using it today. If gum-shrinkage has already set in, use Forhan's according to directions and consult your dentist immediately for special treatment.
